

WE'VE CREATED A MONSTER

By Pastor Del Wray

Recently one of our classmates sent me a message, he said "Delano, I don't want to be a friend because you have gone off the deep end in your writing" I shouted "Praise the Lord" that's the kind of mail I like to get, shows I'm doing my job. Emphatically though, let me say I haven't gone deep enough, just hold on, tighten your seat belt, I'm just getting started. For sure, I'm not a writer, never have claimed to be one and by now you know I kill the King's English for that I apologize for all else, never! First to those friends and classmates I still have left let me ask that you not call me Delano, I hate that name with a passion, I hate it, and I hate it. When I was born my parents did not have a name picked out so they allowed the doctor to name me and that jerk of a doctor named me after Franklin Delano Roosevelt. Maybe, that's why I was so stupid in school. Franklin Delano, like Abe Lincoln was one of the worst presidents this country ever had he was a socialist, one of the biggest promoters of the income tax system in existence today with which the current administration sends billions of our tax dollars to support socialism and Muslims all across this world, right now at this very moment. That egotistical power monger pointed this nation straight to communism, socialism and continued this nation down the road to a one world government. Maybe, he was president when this nation faced one of its greatest emergencies a catastrophe that took us into WW2 but he was A SOCIALISTS. I don't like being tagged with anything that has to do with Socialism, Communism, Catholicism and the other "ism" in this world. So please call me Del, thank you! Del Wray, if you choose to call me by the other name I will by choice not count you as a friend. Yep! I really don't like befriending anyone but if by telling you the truth makes you mad so be it. I'm mad, mad as that place people go to without Christ and I'm sick and tired of this world system, Washington DC, the Supreme Court, the ACLU, and the NEA for trying to force us believers under their thumb screw. NEVER! Be intelligent for once in your life! Read how those greedy organizations have perverted the past history of this great nation and the truth, to promote their own agenda, deceiving millions in this country. We are being brainwashed by the very monster these programs have built, yes I said MONSTER and BRAINWASHED.

Let me show you how by illustrating: Down in South America in one of the warring countries a missionary was leading a small church in worship when suddenly a group of armed soldiers stormed into the little church threatening to kill everyone. They had everyone to line up front and then said "Everyone could leave except true Christians". That little church emptied out in seconds but 3 or 4 still remain standing. As the moments past quietness filled that little building when the command soldier ordered the rest of his men to take off their uniforms. Once done, all the men were in their civilian clothes and their leader told the 3 or 4 true believers still standing that "they all were Christians and they just wanted to worship with real Christians". America no longer is a real Christian nation, if they ever were. As far as a free country, a free land and place where FREEDOM rings not since 1865.

Abraham Lincoln, F.D.R., M.R. King, Jr., JFK, Barack Abominable have pulled the greatest heist the world has ever known. They have stolen the liberty and freedom of over 3 billion people in rejecting God, they are Socialists! Abe Lincoln was the biggest "con" the world has ever known, he and he alone dismantled the Constitution of the United States by himself in 1860. He admitted to Congress that he had broken at least 7 of the 10 terms of that great document. In 1862 in a letter to Horace Greeley he stated that he "started the war not to free the slaves but to save the Union". He broke the law when he separated the State of West Virginia from Virginia; no president had the authority to do that. He will be remembered as the president that committed mass murder and slaughter to over 6 hundred thousand American men and boys under the guise of slavery which he used as a cover, cover up, talk about

Watergate; as I recently wrote before he is the only president to hire and bring in foreign troops, mercenaries, 300 thousand of them to help the North defeat the South. He broke the law by starting the war without the permission of Congress and lied to Congress as to the real reason he started the war. He levied a 40% tax on the South while only 10% up North, thinking that the South would pay up. Instead the Southerners went home packed up their guns and set out to fight for freedom. And yes, I really question whether he is in Heaven or not. He has or should I say the history you've been taught has been twisted and changed so much, yes even the textbooks, America has become the land across the pond of fools. He was the first president to set this country on the road to a dictatorial form of government which will be ultimately reined over by a Pope and the Antichrist. He was the monster that started us feeding the MONSTER. Did not learn that in any public school, did yea? I would not let my dog go to a public school and any parent that sends their child to a public, government school is turning their children over to the devil. Don't like those apples do yaw? "Go suck on a balloon". ABE LINCOLN SHOULD HAVE BEEN IMPEACHED AND TRIED FOR TREASON FOR BREAKING THE CONSTITUTION! And now your current leader is doing the same thing because of good ole Abe's example. Stick that in your hat and smoke on it for a while. Don't be stupid like I was, ignorance is folly.
